

CASE – COUPLE OF HARES

Ivory, glazed

Design: Luise Terletzki-Scherf

height 4 cm · product no. 02.692

Whether it is S, M or XXL – Luise Terletzki-Scherf conducted countless nature studies to ensure the realistic representation of her animal figures. Despite intensive observation, drafts such as the artist's couple of hares that is four centimetres in height represent less a natural creature, but more an interpreted being. In 1976, this duo that nestles closely together was formed for the first time and has lost nothing of its fascination since then.
